

Submission 45

Dear Sir

I know that your submissions closed today and I am unable to open a file that has been sent to me to put this on the appropriate form.

However, our plight as a community radio station is the same as all other community radio stations we need the government help whether it be through the CBF or the CBAA but we all need help I am speaking for all community radio stations and not just Inner North East Community Radio Inc were I am the secretary. I have been on the executive for 5 years reelected twice and this is not the only hat I wear as do many others We have a small revenue which just keeps us existing year after year. We cannot help with work for the Dole or even help work experience children. We offer programs for schools and ethnic programs but would like to expand this. I am constantly meeting with councils and begging with them to help us out. But we need the governments State and Federal to give community radio the support it deserves and needs. Please give this matter your utmost thought and concern.

Thanking You

Pamela Young - Secretary, Program Review Committee member, Sponsorship Officer, Co ordinator

Inner North East Community Radio (96.5 INNER FM)
