

Submission 19

G'day Jackie,

I understand you are heading an inquiry into why people are not getting involved into Digital TV.

The press release your office gave mentioned cost.

The fact is...most Australians are struggling to keep costs down and finally pay off the credit card.

So, going to digital TV means us plebs have to fork out more money to get the service!!!

Guess what.....we can't afford it. Feel free to introduce digital but most of us aren't interested right now.

Regards

Cameron Cudahy
