To the IT pricing committee,

I have seen online that the deadline for submissions has long closed but I would like to make the following point.

I am an Australian living in Denmark.

When in Denmark, to read the Sydney morning herald, I am being asked to pay \$15 per month to read the newspaper. However, when I am in Australia, the different IP address means I can read the newspaper for free online.

I would like to find out why the SMH can justify discriminating against me because I am in Denmark.

Kind regards,
David Bray
