

SUBMISSION NO.41
TT 25 & 26 November 2009

I am a member of Knox Boat Fishing Club and strongly objected to the proposed ban on Mako Shark fishing in Australia, as a recreational fisherman I spend a considerable amount of money on products for fishing including my boat (estimated annual expenditure including boat, car to tow, fishing equipment, bait, fuel and accommodation at resort \$20k) and if the proposed ban goes ahead I will not be going fishing anymore.

I wish to strongly recommend and request that Peter Garrett rethink this ban and wait for public opinion and scientific evidence to be provided before making any decisions.

Yours truly

Glenn Gazzola
