

**Australian Parliament
Joint Standing Committee on Migration
Submission no. 307**

To the Committee Secretary

Dear Sir/Madam I want to write this to you to share my concerns on multiculturalism in this country, I was born in this country as were my parents and grandparents, and I grew up

with values and freedoms that were fought for on the battlefields of world wars 1 and 2, my great

uncle fought on the Western Front as a Captain and laid down his life for his country the land of Australia.

The concerns I have are for my children and grandchildren and the generations to follow, our country

can welcome people from across the world and invite them to become Australians and I know that some of

their ways will permeate society, but I and my family want Australia to maintain the foundations that is in its

heritage. Why should we adjust to accommodate all cultures and all values, which ultimately means losing

the Australian identity to suit other cultures.

I am asking you to remember that the freedoms this country has are going to be lost forever if the

Australian Government ignore the concerns of hard working Australians like myself and my family.

Thank you regards
