FOREWORD.

On 14th May, 1958, Your Committee presented to the Parliament in the Thirty-Eighth Report an index to the first thirty-four reports of the Joint Committee of Public Accounts. This revised index now covers the forty-one reports issued by the first three Committees in the period of six years between the appointment of the First Committee on 25th September, 1952, and the presentation of the Forty-First Report, the last report of the Third Committee, on 25th September, 1958.

The method of compilation of this Index is similar to that adopted in the first index. Topics have been listed under main subject headings and then is indicated the number of report and the page or the first of a succession of pages in that report where the topic will be found. Commonwealth departments are indexed uniformly under the key name of the department, e.g., "Trade Department" and not "Department of Trade". Authorities whose formal titles commence with "Commonwealth" or "Australia" are so indexed with a cross reference under a commonly used name, for example, "Australian Wheat Board" is indexed under "Australian" with a cross reference under "Wheat Board". Treasury Minutes, conveying to the Committee the action taken by the Treasury and departments on their reports, are indexed under "Treasury Minutes".

The following example will illustrate the way in which the index is to be interpreted:—

" RECRUITING CAMPAIGN-

The Committee will continue to add to the Index from time to time.
